

Nikola Hadzhiev

SOFTWARE DEVELOPER

Summary

I am a Software Developer with more than 6 years of experience in learning tech stacks and developing web and desktop applications with extensive knowledge of C#, ReactJS with Redux, ExpressJS. I have a great passion for exploring new programming technologies

Experience

RPA Junior Software developer - Next Consult

(April 2022 – December 2022)

- Worked with a team of 4 RPA developers
- Individual tasks - developing an automation for a process using UIPath platform
- C# and VB.Net – creating custom scripts for manipulating and extracting information from websites, Excel Sheets, Word documents
- Development of unattended and attended robots - Automate task-heavy, long-running workflows.
- Internal Company Chatbot – Used Express.js and Firebase with Dialogflow and UIPath

Software developer intern - Haemimont

During a one month internship at the company, I worked on a demo REST API about giving specific shape files with longitude, latitude and colors to a map and visualising it. I learned the main concepts of the database PostgreSQL and the platform QGIS, Postman, DBeaver. My main contributions were at the back-end side with the language C# and the technology ASP.Net.Core.

Years in Software University

C# Skills (IT Career) – 3 year-long national program

During education, I was taught the programming essentials, object-oriented programming, data bases, algorithms, embedded and operating systems, functional programming, web programming and general software development with C#.

JS Skills (SoftUni Modules) – 2 year-long education

During JS Web Developer Modules, I was taught to develop data-driven web applications with Node.js, Express.js, MongoDB. The modules provided knowledge and practical skills for the development of Single Page Applications (SPA) using ReactJS technology, custom hooks, Context API and SaSS

ReactJS Skills (Redux) – self- taught

4 months education at Boom.dev

Developed two big projects with ReactJS and NextJS technology

Education

Sep 2021 - **Bachelor of Computer Technology**
Present **University of Telecommunications and Post**

Oct 2018 - **Professional Qualification level 3 Software developer**
May 2021 **SoftUni, Technology School Electronic Systems and the Ministry of Education.**

Sep 2016 - **Professional Qualification level 3 Office Manager**
May 2021 **National Trade and Banking High School**

- github.com/NikolaHadzhiev

Skills

- C# (.NET Core, MVC, OOP)
- ExpressJS
- ReactJS (Redux, Redux Toolkit)
- JavaScript
- TypeScript
- HTML/CSS/SaSS
- SQL/Postgre/MySQL/MongoDB
- Python (Flask)

Languages

English - **Level C1** from Cambridge

Advanced English

Spanish – **Level B1** studied in high school

Projects

TechHeaven-Ecommerce

Developed an advanced ecommerce platform designed for buying a wide range of tech products using cutting-edge technologies such as React with Redux Toolkit on the front-end and C# .NET 7.0 on the back-end

Multi-Toolbox desktop application

Developed a usefull toolbox that can manage files, use cryptography for encrypting files, save passwords as a password manager, convert files with a team of three people.

Banking website

Developed a website that simulates online banking

NFT Auction SPA

Used ReactJS to create a NFT shop (only front-end)

Home Automation SPA

Used ReactJS to create a Home Automation system (only front-end)
